

F.I.S.T.F.

SUBBUTEO

1) INTRODUCTION TO THE GAME

Kick off.

When kicking off, the opponent's figures may not be within the centre circle or touching the line. Both sets of figures must not be in their opponent's half or touching the half-way line. Each figure is only allowed to be flicked three times before the ball touches another figure (goalkeepers included).

Possession is retained until:

- The figure flicked misses the ball, or
- The ball touches an opponents figure. Possession may pass from one player to the other between flicks as the ball touches different figures. A player may make a possession flick at any time while he retains possession.

A corner, goal kick or throw-in is won by the opponent of the player who has just taken a possession flick before the whole of the ball crossed the whole of the line, unless a deflection occurs within or on the line of the sector in which the ball departed the playing area, in which case the set-piece is won by the opponent of the player whose figure last touched the ball. However, for a goal kick or corner to be won via a deflection in the last quarter of the field, this deflection may not have occurred on the line. If the ball leaves the playing area on the line between two sectors, then both sectors count as one.

Flicking (no 'push-shots').

The finger should go from curled to less-curved (work that one out!!), so definitely no shoves with a straight finger. If this rule is violated, the opponent may ask the player to put the figure back and he loses possession (or the blocking flick or free flick).

Following each possession flick, the player not in possession may take a blocking flick. This flick must not touch the ball or an opponent's figure (otherwise all are returned to their original positions and the blocking flick is forfeited) unless contact is made after a further possession flick has been taken. If the two flicks are simultaneous (and ball or opponent's man are contacted) then the blocking flick is forfeited.

If the player in possession touches an opponent's blocking flick with any part of his body while on the pitch, the opponent may retake his blocking flick in his own time.

If the ball leaves the active playing area (so that no part of the ball is inside the line, or over the line at the edge of the pitch) then a throw-in/goal-kick/corner is taken accordingly by the opponent of the player whose figure last touched the ball, unless

- a goal is scored, or
- the sector rule is violated.

Before all set-pieces, the player in possession must take all of his flicks before his opponent takes his, if his opponent so desires. If any free flick touches the ball, figure and ball are returned to their original positions, and the flick is forfeit.

If a figure leaves the green surface at the edge he must be placed where he left the surface, at the edge and not on the line.

F.I.S.T.F.

A goal.

A goal can be scored by the following:

- When the ball is struck from a position in the opponent's shooting area and completely over the line.
 - Via a deflection from a figure who is in the shooting area and over the line.
 - An own goal can be scored from a flick by a player into his own goal from anywhere inside his own half. For a goal to be given, the whole of the ball must be over the whole of the line.
- Following a goal, a kick-off is taken by the opponent as at the start of the game.

If the ball leaves the playing area into a player's goal, but a goal is not valid, then a goal-kick is taken by that player.

In order to score a goal or win a throw-in/corner/goal-kick then the first figure to touch the ball must belong to the player in possession (ie no flicking the opponents figure into the ball to gratuitously win a goal or set piece).

Goalkeepers' rules.

The goalkeeper may not touch the ball outside his own 6-yard-box (ie his circular base must be inside or on the line if he makes contact with the ball).

The goalkeeper wins possession for his team if he can touch the ball while it is stationary.

The goalkeeper must not be flicked and if the ball is to be pushed out into play by him he must be held for the whole of the pushing action.

foul.

A foul occurs if:

- A flicked figure touches an opponent's figure and then the ball.
- The ball touches a player's hand. A free kick is taken from where (a) the figure was, or (b) the ball was.

If the kick is direct (ie fully within the shooting area), the opponent may form a straight wall with up to four of his figures 9cm from the ball. Then each player has three free flicks (starting with the player in possession) unless a quick free kick is declared.

Offside.

A figure (A) is offside following a flick from his own team:

- The ball is moving forwards, and
- The ball is completely inside the shooting area, and
- The ball is between all of the opponent's figures (apart from the goalkeeper) and the goal line, and not overlapping, and
- The figure (A) is between all of the opponent's figures (apart from the goalkeeper) and the goal line, and not overlapping, and
- The figure (A) is between the ball and the goal line, and not overlapping, and
- The last figure to touch the ball before a, b, c, d and e become true is on that figure's team,

F.I.S.T.F.

Corners.

Three free flicks are awarded to each player before a corner.

Following a corner, the corner taker can touch the ball again. Only after this can he be considered to be offside, or after possession has been lost or a set-piece has occurred.

A corner or goal kick can only be won from a deflection from a figure who is completely goal side of the shooting line (this is to bring consistency with the goal scoring rule). However, a throw in can still be won from a figure who is on the line.

Free-kicks.

For an indirect free kick or throw-in, the player in possession may announce that no free flicks are to be taken, provided that the figure nearest to the ball is used to take the kick.

If an onside flick or free flick touches the ball, the figure and ball are returned to their original places and the flick is forfeited.

A player winning a free kick through a foul or offside may play advantage and may carry on in possession. except in special circumstances following a corner. A free kick is taken from the offside position as per a normal foul.

Up to two onside flicks may be taken between possession-flicks, to be matched by opponents flicks.

If during a free flick or onside flick an opponent's figure is moved, he has the opportunity of replacing it in the original position.

If the ball leaves the active playing area (so that no part of the ball is inside the line, or over the line at the edge of the pitch) then a throw-in/goal-kick/corner is taken accordingly by the opponent of the player whose figure last touched the ball, unless

Throw-ins.

For a throw-in, the ball may be moved back down the line by the width of one sector to avoid interference by an opposing figure.

One free flick is awarded to each player before a throw-in.

A figure who is not on the pitch (ie completely over the border) cannot be used to either win possession or win a goal, throw-in, goal kicker corner via a deflection.

2) COMPLETE RULES

Part I. LEXICON AND DEFINITIONS

1. Ball in or out of the game

The ball is in the game at all times after the referee has given the signal to commence or to continue unless:

- 1.1. the ball has completely passed the goal- or touchline
- 1.2. an offense has been stated by the referee and the offended player does not request to play on.
- 1.3. the game has been interrupted by the referee in the following situations:

F.I.S.T.F.

1.3.1. Rule 2.1: Placing and raising of playing figures: If the ball is stationary, the referee interrupts the game and places figures according to the rules and allows the defender time to take an untaken block-flick.

1.3.2. Rule 5.4: Limited flick: If the attacker, when attempting to flick a playing figure at the ball, needs to take up a position behind the board that requires the defender to move out of convenient reach of the goalkeeper, the referee shall allow the attacker to make his/her flick, then allow the defender time to take his/her block-flick.

1.3.3. Rule 8.3: Substitution of the goalkeeper: A broken or damaged goalkeeper may be substituted at any time of the game providing the ball is stationary. After the player has announced his intention to substitute the broken goalkeeper, the referee shall check if the replacing goalkeeper fulfills the defined regulations, then allow the defender to take an untaken block-flick.

2. Base

The base is the bottom part of a playing figure. The base of a playing figure allows it to slide or move forward on the playing surface.

3. Distance

On the occasions of a free-flick, penalty-flick, corner-flick, flick-in or goal-flick, the offended player may claim "distance", if any opposing playing figure is positioned too close to the ball after all the positional flicks have been taken. The following measures are the required minimum distance between the nearest edges outside the relevant playing figure and the ball when viewed directly from above.

Phase	Minimum distance
Flick-in	40 mm between defending figures and the ball
Free-flick	Idem
Penalty-flick	All playing figures except the penalty taker and the goalkeeper are to be positioned off the regarded penalty- area and its semi-circle.
Corner-flick	90 mm between defending figures and the ball
Goal-flick	The playing figures are to be positioned with a minimum distance of 20 mm between any defending and attacking playing figure. All playing figures except the goalkeeper and the goal-flick taker are to be positioned outside the penalty-area where the goal-flick is being taken.

The referee shall move all defending playing figures from the ball by following the axis of the playing figures' position to the ball. However, the playing figures should not be moved off the playing-area more than 1 mm or into the goal-area or to touch the goal-area line. See rule 2.1.1 and 2.1.2.

4. Field playing figure

Field playing figures are all playing figures of a player excluding the spare-goalkeeper and the goalkeeper.

5. Figure

The figure is the upper part of a playing figure that is firmly fixed to the playing figure's base and shall represent a human body.

F.I.S.T.F.

6. Match

In a match of sports table football, two players face each other by following the FISTF rules and regulations. At the end of the match, the player who has scored more goals than his/her opponent wins the match.

7. Passing a line

The ball or the playing figure has completely passed a line when the referee is able to see green between the ball or the playing figure and the line when viewed from directly above.

8. Player

The player is the physical person who plays a match of sports table football by following the FISTF rules and regulations.

9. Playing area

The area within the goal- or touchlines of the playing surface is called the playing-area.

10. Playing board

The playing board consists of hardboard or similar material with a playing surface properly fixed, two goals and is surrounded by a fence or other barrier.

11. Playing figure

Playing figures are used to flick and shall consist of a figure and a base.

12. Playing surface

The playing surface shall be a rectangle and consist of a smooth pitch cloth with the defined printed lines to play conventional or indoor sports table football.

13. Team

A team consists of basically four players who are playing against the same number of players of another team on an equal number of playing boards. At the end of a match between two teams, the achieved points and eventually the accumulated goal difference are considered to determine the final result.

F.I.S.T.F.

Part II. SPORTS RULES OF THE GAME

Rule 1: Manipulation of the playing figures

1.1. Flicking

1.1.1. A playing figure shall be propelled by placing the index or middle finger of either hand by the playing figure and flicking with the nail of the finger against the playing figure's base.

1.1.2. Playing figures must not be knocked, pushed, nudged or scraped along nor may any leverage be gained other than from the playing surface. The flicked playing figure shall instantaneously leave the nail of the used finger. The player's hand and lower forearm may not move during the flick. Propelling the figure without touching the playing figure's base is not allowed.

When the offense occurs:

Referee's expression:

Incorrect flicking - free-flick

Punishment:

- a. Free-flick from where the offending player has flicked incorrectly. See rule 11.
- b. Free-flick from the penalty-spot if the offense has been committed in the penalty-area. See rule 11.1.

1.1.3. Handicapped people with no adequate index or middle finger may use any other finger to flick.

1.1.4. A flick is considered taken if a player has touched any part of any playing figure.

1.2. Illegal flicking

Neither player can flick a playing figure if they are not allowed to take a flick or if the playing figure is lying down or is entangled.

When the offense occurs:

Referee's expression:

Illegal flicking - free-flick

Punishment:

- a. Free-flick from where the offending player has flicked illegally. See rule 11.
- b. Free-flick from the penalty-spot if the offense has been committed in the penalty-area. See rule 11.1.

1.3. Position of the player

1.3.1. The players are allowed to touch the playing board's barrier in order to keep balance.

However, neither player is allowed:

1.3.1.1. To put both hands on or above the playing-area at the same time.

1.3.1.2. To lean on or push the playing board in order to destabilize it.

When the offense occurs:

Referee's expression:

Physical foul position - free-flick

Punishment:

- a. Free-flick from where the ball is positioned at the moment of the offense. See rule 11.
- b. Free-flick from the penalty-spot if the ball has been positioned in the penalty-area at the moment of the offense. See rule 11.1.

1.3.2. It is allowed to use the goalkeeper and flick at the same time.

F.I.S.T.F.

1.4. Polishing of playing figures

1.4.1. The playing figures' bases may be polished with any desired means. The playing figures may be polished before the game or during the half-time break.

1.4.2. Providing the game is not interrupted or delayed, the playing figures may be polished also during the game in situations where a player is allowed to pick up playing figures for goal-flick, flick-off, flick-in, free-flick, corner-flick, penalty-flick or if a playing figure has fallen off the playing board. To polish playing figures during the game on the defined occasions, it is recommended to attach the polish cloth to the player's belt.

1.4.3. Between the end of full time and the beginning of the sudden death extra-time, the referee shall allow the players to polish their playing figures briefly. No extensive polish procedure is allowed.

When the offense occurs:

Referee's expression:	Time wasting - free-flick
Punishment:	See rule 10.

1.5. Number of playing figures

Each player shall use a maximum of 10 playing figures, excluding the goalkeeper and the spare-goalkeeper.

When the offense occurs:

Referee's expression:	Illegal playing figure number - free-flick
Punishment:	a. Free-flick from the penalty spot of the offending player. See rule 11. b. If a player uses more than 10 playing figures the referee shall immediately interrupt the game in order to reduce the number of the offending player's playing figures for the rest of the match by twice the number of playing figures exceeding the limit. Thereby, the referee shall remove the playing figures that are closest to the ball but not the goalkeeper or the spare-goalkeeper. Then, the referee shall give the signal for the game to continue by stating: "play !"

Rule 2: Placing, raising and substituting of playing figures

2.1. Placing playing figures that passed a line of the playing area

2.1.1. *Placing playing figures that left the playing area, but not the playing surface*

2.1.1.1. A playing figure that has passed the touch- or goalline without leaving the playing surface stays where it stopped and remains in play. The figure may be played at any time.

2.1.1.2. If the playing figure remains at 21 mm or less from the line, which is less than the diameter of the ball, it is possible to force a flick-in, corner flick or goal flick on this figure. If the playing figure is at 22 mm or more from the line, it is not possible to force any flick-in, corner flick or goal flick on this figure.

2.1.1.3. In order to be absolutely sure if it is possible to force or not, the attacker, providing the ball is stationnary, *may* ask the referee if a defending playing figure may be forced upon. In that case, the following procedure has to be followed:

Referee's expression:	Verifying forcing possibility !
Referee's action	a. The referee interrupts the game and allows an untaken block-

F.I.S.T.F.

flick to be taken.

- b. He measures the distance between the figure and the line with a reserve ball or a special card 22 mm wide, then inform the players if it is possible to force or not on the regarded playing figure.
- c. The referee shall give the signal for the game to continue by stating: "play !"

2.1.1.4. If the attacker did not ask if it was possible to force on a playing figure before trying to do so, *and* if the referee has the slightest doubt on the fact that it was possible to force, he will decide against the attacker.

2.1.2. *Placing playing figures that left the playing surface, but not the playing board, without touching the barriers*

2.1.2.1. A playing figure that has left the playing surface and remains on the playing board without hitting the barrier shall be placed by the referee *on the internal limit of the playing surface*, off the nearer touch- or goalline level to where it has come to rest, as soon as the ball is stationary.

2.1.2.2. After it has stopped out of the playing surface, a playing figure is not in play and cannot be used again until it has been positionned by the referee as described above.

2.1.2.3. A figure is considered as having left the playing surface as soon as any part of its base touches the playing board.

2.1.2.4. Temporarily leaving the playing surface by a playing figure is accepted if it does not rebound off the barriers. The figure may then be played normally.

2.1.2.5. The following procedure must be followed immediately when the ball becomes stationnary:

Referee's expression:

Placing !

Referee's action

- a. The referee interrupts the game and places/raises the playing figures.
- b. The referee allows an untaken block-flick to be taken.
- c. The referee shall give the signal for the game to continue by stating: "play !"

2.1.2.6. If either player violates the above mentioned procedure:

When the offense occurs:

Referee's expression:

Illegal flicking - free-flick

Punishment:

- a. Free-flick from where the offending player has flicked illegally. See rule 11.
- b. Free-flick from the penalty-spot if the offense has been committed in the penalty-area. See rule 11.1.

2.1.2.7. As the playing figure is placed at more than 21 mm from the line, it is not possible to force any flick-in, corner flick or goal flick on this figure.

2.1.3. *Placing playing figures that rebound off the barriers, but do not leave the playing board*

2.1.3.1. A playing figure that has rebounded off the barriers shall be placed by the referee *on the internal limit of the playing surface*, off the nearer touch- or goalline level to where it has come to rest as soon as the ball is stationary.

F.I.S.T.F.

2.1.3.2. After rebounding off the barriers, a playing figure is not in play and cannot be used again until it has been positioned by the referee as described above.

2.1.3.3. After rebounding off the barriers, a playing figure is not allowed to interfere with play and touch any playing figure and/or the ball before it has been placed correctly.

When the offense occurs:

Referee's expression:

Rebound - back / free-flick

Punishment:

- a. Back for touching a stationary playing figure and/or the stationary ball. If back is claimed the referee shall replace all affected playing figures and/or the ball to their previous positions and allow an untaken block-flick to be taken. Then, the referee shall give the signal for the game to continue by stating: play!
- b. Free-flick from where the illegally rebounded playing figure has touched a moving playing figure and/or the moving ball. See rule 11.
- c. Free-flick from the penalty-spot if the illegally rebounded playing figure has touched a moving playing figure and/or the moving ball in the penalty-area. See rule 11.1.

2.1.3.4. If a rebounded playing figure comes to rest on the playing area and is touched by the ball before it could have been placed correctly, possession of the ball shall not be interfered as the playing figure is considered to be a neutral object.

2.1.3.5. The same procedure as point 2.1.2. has to be used to place the playing figure.

2.1.3.6. As the playing figure is placed at more than 21 mm from the line, it is not possible to force any flick-in, corner flick or goal flick on this figure.

2.1.4. **Placing playing figures that left the playing board**

2.1.4.1. Providing the ball is stationary, a playing figure that has left the playing board shall be placed by the referee *on the internal limit of the playing surface*, off the touchline on the side where it has left the playing board, at the height of the middle-line.

2.1.4.2. The same procedure as point 2.1.2. has to be used to place the playing figure.

2.1.4.3. As the playing figure is placed at more than 21 mm from the touchline, and as the figure is not completely in a zone, it is not possible to force any flick-in on this figure.

2.2. **Placing of playing figures in the goal-area**

2.2.1. Providing the ball is stationary, a playing figure positioned in the goal-area, goal-mouth or touching the goal-area lines shall be placed by the referee 1 mm off the goal-area forward in the penalty-area perpendicularly to the goalline.

2.2.2. Playing figures shall remain positioned in the goal-area when the goalkeeper of that specific goal-area is replaced by the spare-goalkeeper. However, if a playing figure is positioned completely in the goal-mouth the referee shall place it 1 mm off the goal-area forward in the penalty-area perpendicularly to the goalline.

2.3. **Placing of playing figures that should be put at the same place on the playing surface**

If some kind of obstacle does not allow to place a playing figure in accordance with the positioning rules, this figure will be placed 1 mm off this obstacle, in the direction of its own goal, or in the direction of the corner if the figure had to be placed off the goalline.

F.I.S.T.F.

2.4. Raising playing figures

2.4.1. Providing the ball is stationary, a playing figure lying down must be put upright by the referee. To put a lying playing figure upright the junction of the lying playing figure's base with the playing surface shall be used as a fixed point when standing up the playing figure.

2.4.2. The same procedure as point 2.1.2. has to be used to place the playing figure.

2.4.3. Providing the ball is stationary, entangled playing figures shall be taken apart and placed by the referee 1 mm next to each other.

2.5. Substitution of playing figures

2.5.1. Damaged or broken playing figures may not be used and must be substituted. During playing time maximum 3 playing figures may be substituted as long as the replacement playing figures are equally colored and of the same composition.

2.5.2. Playing figures can only be substituted at the occasion of a goal-flick, corner-flick, flick-in, free-flick, penalty-flick or if a goal has been scored.

Procedure:

Player's expression:

Substitution !

Referee's action:

The referee checks if the replacement playing figure fulfills the defined regulations and places it at the last position of the substituted playing figure's base. Then, the referee shall give the signal for the game to continue by stating: play!

2.5.3. The referee shall add lost time caused by the substitution of playing figures as extra time at the end of the regarded interval.

2.5.4. It is also allowed to change one's entire team of playing figures at half-time. The color and type of the playing figures may be different from the ones used in the first half, but must still fulfill the requirements of rule 4.1 and the Equipment Regulations.

Rule 3: Duration of the game

3.1. Match time

3.1.1. The duration of the game shall consist of two periods of fifteen minutes each. The half time interval shall be 3-5 minutes. The referee shall be the sole match timer, keeping track with his own watch.

3.1.2. The players are allowed to use their individual time device. Each player's time device shall not interfere with or disturb the match by sound or position. The referee shall give no importance to a player's time device, and has the right to ask the player(s) to remove it if he thinks it can disturb the game.

3.2. Added time

3.2.1. In case of substitution of a playing figure or goalkeeper, a delaying interruption of the match or in case of time wasting by either player, the referee shall add lost time at the end of the affected period. See rule 10.8.

3.2.2. At the end of normal time, the referee shall announce how long extra time will last. Thereby, it may occur that the extra time is extended based on occurrences during the extra time.

3.2.3. The referee shall add time at the end of a period to allow a penalty-flick to be taken. See rule 12.

F.I.S.T.F.

3.3. Sudden death / shoot-out

3.3.1. Individual competition

3.3.1.1. If in knock-out competitions the score of a match is drawn at the end of full time, one period of ten minutes sudden death shall be played. The sudden death shall start immediately after full time with a flick-off. See rule 4. The match shall end when one player has scored.

3.3.1.2. If, after sudden death, the match is still drawn a shoot-out shall take place immediately. See rule 17.

3.3.2. Team competition

3.3.2.1. If a knock-out game between two teams is drawn at the end of full time, the cumulated goal difference of all four matches shall decide on the winner. If the score and the cumulated goal difference are equal, one period of ten minutes sudden death shall be played on all four tables. The sudden death shall start immediately after full time with a flick-off. See rule 4. The match shall end when one of the players on the four different tables has scored.

3.3.2.2. If, after sudden death, the match is still drawn a shoot-out shall take place immediately. See rule 17.

Rule 4: Flick-off

4.1. Definition

4.1.1. Prior to the start of the game or extra time the referee shall choose a player to call and toss a coin, and the winner shall have choice of flick-off or ends. For the second half the players shall change ends and the flick-off shall be taken by the player who did not start the game.

4.1.2. If two players meet with identically or similarly colored or painted bases, a coin shall be tossed by the referee and the player losing the call shall exchange his playing figures. The designated player shall not use more than 2 minutes to exchange his playing figures.

When the offense occurs:

Referee's expression: Misconduct

Punishment: See rule 10.1. Of course, no free flick can be awarded.

4.2. Procedure for taking a flick-off

4.2.1. The playing figures of each player shall be positioned completely in their own half of the playing-area with the defender having no playing figure positioned inside the center-circle nor touching the center-circle line.

When the offense occurs:

Referee's expression: Illegal position!

Punishment: The referee must immediately correct any offending position of any playing figure.

4.2.2. The attacker has to place his playing figures first, but not the playing figure taking the flick-off. After the attacker has completed the placing of his playing figures he is not allowed to change their positions again, and the defender is to place his playing figures as required.

When the offense occurs:

Referee's expression: Illegal manipulation - change of flick-off right

Punishment: The right for taking the flick-off changes to the opponent.

4.2.3. The ball shall be placed on the center-spot and at the referee's signal to play, the ball shall be propelled forward into the opposing half by the designated playing figure.

F.I.S.T.F.

When the offense occurs:

Referee's expression:

Illegal flicking - replay / change of flick-off right

Punishment:

- a. The flick-off shall be retaken.
- b. The right for taking the flick-off changes to the opponent, if after retaking the flick-off the ball has still not been propelled forward by crossing the center-line.

4.2.4. The playing figure taking the flick-off must not be flicked again until:

- a. The ball has been played by another attacking playing figure.
- b. Another attacking playing figure has been touched by the ball .
- c. Possession of the ball has changed.

When the offense occurs:

Referee's expression:

Illegal flicking - free-flick

Punishment:

- a. Free-flick from where the offending player has flicked illegally. See rule 11.
- b. Free-flick from the penalty-spot if the offense has been committed in the penalty-area. See rule 11.1.

4.2.5. After scoring a goal the game shall be continued with a flick-off taken by the player conceding the goal. No more than 10 seconds shall be given to the players to position the playing figures for flick-off.

When the offense occurs:

Referee's expression:

Time wasting - change of flick-off right

Punishment:

- a. If the player who has conceded a goal violates this rule, the referee shall decide on an immediate change of the flick-off right.
- b. If the player who has scored a goal violates this rule, see rule 10.

Rule 5: Attacking

5.1 Attacker

The player in possession of the ball shall be deemed the attacker. Possession of the ball shall remain with the attacker unless:

- a. The flicked attacking playing figure has missed the ball.
- b. The ball hits a stationary defending playing figure or the defender's goalkeeper. A playing figure lying down can not gain possession of the ball and is considered to be a neutral object.
- c. A flick-in, free-flick, corner-flick, goal-flick, flick-off or penalty-flick is awarded to the defender.

Action to take:

Referee's expression:

The referee shall immediately indicate any change of possession of the ball by stating: "change!"

F.I.S.T.F.

5.2 Attacking

5.2.1. The attacker may play a moving or stopped ball, but may not flick with the same attacking playing figure more than *three* times in succession until:

- a. The ball has been played by another attacking playing figure or the attacker's goalkeeper.
- b. Another attacking playing figure has been touched by the ball.
- c. Possession of the ball has changed.

5.2.2. However, if the played attacking figure flicks the ball onto a defensive playing figure (*not* the goalkeeper), and from there it rebounds back to the played attacking figure, the requirement of change of possession is not fulfilled in order to regain three consecutive flicking opportunities.

When the offense occurs:

Referee's expression: Illegal flicking - free-flick

Punishment:

- a. Free-flick from where the offending player has flicked illegally. See rule 11.
- b. Free-flick from the penalty-spot if the offense has been committed in the penalty-area. See rule 11.1.

5.3. Foul play by the attacker

5.3.1. An attacking playing figure flicked at the ball must not touch any stationary playing figure before hitting the ball.

When the offense occurs:

Referee's expression: Foul play - free-flick / penalty-flick

Punishment:

Free-flick from where the attacking playing figure has fouled any playing figure or goalkeeper before hitting the ball. See rule 11./12.

5.3.2. After having touched the ball, the attacking playing figure may touch any playing figure before coming to rest.

5.3.3. An attacking playing figure which has missed the ball may not touch any playing figure before it comes to rest.

When the offense occurs:

Referee's expression: Change - back

Punishment:

If back is claimed by the offended player the referee shall replace all affected playing figures and/or the ball to their previous positions. Then the referee gives the signal for the game to continue by stating: "play!". Possession of the ball changes to the defender whether back is requested or not.

F.I.S.T.F.

5.3.4. If the stationary ball is touching simultaneously an attacking playing figure and more playing figures of either player, possession shall remain with the attacker. However, with the next attacking flick the ball must be played out of this position so that no more than one playing figure touches the ball when it is next stationary.

When the offense occurs:

Referee's expression:	Blocked ball - free-flick
Punishment:	a. Free-flick from where the stationary ball has been blocked illegally. See rule 11. b. Free-flick from the penalty-spot if the stationary ball has been blocked illegally in the penalty-area. See rule 11.1.

This rule shall be applied to avoid "scrimmaging" the ball forward. If however, the ball is played out of a position where more than one playing figure were touching the ball simultaneously, and the attacker's clear intention was to avoid "scrimmaging" with his next flick, and accidentally the ball comes to rest again by touching more than one playing figure simultaneously, the referee shall not decide on "blocked ball".

5.4. Limited flick

5.4.1. If the attacker, when attempting to flick a playing figure at the ball, needs to take up a position behind the playing board that requires the defender to move out of convenient reach of the goalkeeper, the referee shall allow the attacker to make his/her flick, then allow the defender time to take his/her block-flick.

5.4.2. It must be clear that the concept of limited flick may not be extended to other situations where the attacker does not hinder the goalkeeping of the defender.

Procedure:

Referee's expression:	Limited flick!
Punishment:	The referee allows the attacker to take his flick and then interrupts the game by stating "block-flick" to allow the defender time to take his defensive flick. Then the referee declares the match to continue by stating: "play!"

5.4.3. The attacker must allow the defender to take his block-flick.

When the offense occurs:

Referee's expression:	Illegal flicking - free-flick
Punishment:	a. Free-flick from where the offending player has flicked illegally. See rule 11. b. Free-flick from the penalty-spot if the offense has been committed in the penalty-area. See rule 11.1.

Rule 6: Defending

6.1. Defender

The player not in possession of the ball shall be deemed the defender. The defender obtains possession of the ball when:

6.1.1. The flicked attacking playing figure has missed the ball.

F.I.S.T.F.

6.1.2. The ball hits a stationary defending playing figure or the defender's goalkeeper. A playing figure lying down can not gain possession of the ball and is considered to be a neutral object.

6.1.3. A flick-in, free-flick, corner-flick, goal-flick, flick-off or penalty-flick is awarded to the defender.

Action to take:

Referee's expression: The referee shall immediately indicate any change of possession of the ball by stating: "change!"

6.2. Defending - block-flick

6.2.1. After each touch of the ball by a flicked attacking playing figure or the attacking goalkeeper, the defender may flick a playing figure for defensive purpose - block-flick. The defender may not take his block-flick before the attacker has touched the ball.

When the offense occurs:

Referee's expression: Illegal flicking - free-flick

Punishment:

- a. Free-flick from where the offending player has flicked illegally. See rule 11.
- b. Free-flick from the penalty-spot if the offense has been committed in the penalty-area. See rule 11.1.

6.2.2. A block-flick taken by the defender after the attacker has missed the ball is considered an attacking flick.

6.2.3. The attacker does not have to wait for the defender to take a block-flick. However, in the following situations, the referee shall allow the defender time to make a block-flick.

6.2.3.1. Rule 2.1: Placing and raising of playing figures: If the referee interrupts the game and places playing figures according to the rules (when the ball is stationary), he shall allow the defender time to make an untaken block-flick.

6.2.3.2. Rule 5.4: Limited flick: If the attacker, when attempting to flick a playing figure at the ball, needs to take up a position behind the playing board that requires the defender to move out of convenient reach of the goalkeeper, the referee shall allow the attacker to make his/her flick, then allow the defender time to take his/her block-flick.

6.2.3.3. Rule 8.3: Substitution of the goalkeeper: A broken or damaged goalkeeper may be substituted at any time of the match providing the ball is stationary. After the player has announced his intention to substitute the broken goalkeeper, the referee interrupts the game and shall control if the replacing goalkeeper fulfills the defined regulations, then allows the defender to take an untaken block-flick.

6.2.3.4. Rule 9.2.2: Removing of the spare-goalkeeper: After the spare-goalkeeper has been removed from the playing area, the referee interrupts the game and allows the defender to take an untaken block-flick.

6.2.3.5. Rule 13.4: Procedure for taking a tick-flick: When the referee has given the attacker permission to take a tick-flick, he shall allow the defender to take an untaken block-flick before the tick-flick is taken. After the attacker has taken the tick-flick, the referee shall allow the defender to take another block-flick.

6.2.3.6. Rule 14.2: Procedure for taking a flick-in: Before the attacker may proceed with attacking after a flick-in, the referee shall allow the defender to take a block-flick.

6.2.4. A block-flicked playing figure must not touch the ball nor any playing figure of either player.

F.I.S.T.F.

When the offense occurs:

Referee's expression:

Punishment:

Function of the case

b. The ball is moving:

- (1) The defending playing figure touches a stationary playing figure: case (ii).
- (2) The defending playing figure touches the moving ball: free flick (iii).
- (3) The defending playing figure touches a moving playing figure: free flick (iii).

- (i) If back is claimed the referee shall replace all affected playing figures and/or the ball to their previous positions. Then, the referee shall give the signal for the game to continue by stating: play!
 - (ii) For violating a stationary playing figure, a free-flick (iii) shall only be awarded if the violated playing figure has been prevented to be used to play a moving ball. Otherwise a back shall be applied as mentioned under (i).
 - (iii) Free-flick from where the offending playing figure has committed the offense. Free-flick from the penalty-spot if the offense has been committed in the penalty-area. See rule 11.
 - (iv) If back is requested by the attacker, the referee shall replace the offending playing figure and the eventually affected ball to the previous position. The referee shall position the offended attacking playing figure where the offense took place and give the signal for the game to continue by stating: "play!". Thereby, the attacker gains some distance and keeps the number of flicking opportunities with the regarded playing figure. See 5.2.
- 6.2.5. A block-flicked playing figure is not allowed to touch any part of the attacker's body.

When the offense occurs:

Referee's expression:

Punishment:

Obstruction - back / free-flick

- a. Back for touching any part of the attacker's body while the ball was stationary. If back is requested, the referee shall replace any eventually affected playing figures and/or the ball to their previous positions, and the block-flick is lost. Then, the referee shall give the signal for the game to continue by stating: play!
- b. Free-flick from where any part of the attacker's body has been touched by a block-flicked playing figure while the ball was moving. See rule 11.
- c. Free-flick from the penalty-spot if any part of the attacker's body has been touched in the penalty-area by a block-flicked playing figure while the ball was moving. See rule 11.1.

- a. The attacker has touched the ball with the next attacking flick - no accumulation of block-flicks.
- b. Possession of the ball has changed to the defender.
- c. The ball has completely crossed the goal- or touchlines.
- d. A free-flick has been awarded and accepted.

F.I.S.T.F.

Rule 7: Scoring a goal

7.1. Correct scoring

7.1.1. A goal is scored if the ball has completely crossed the goalline between the goal posts and under the crossbar providing:

- a. the ball has been shot from completely inside the opposing shooting-area with no importance to the shooting playing figure's position. See rule 9.1c.
- b. the ball has been shot before the signal to end the game has started.

7.1.2. The referee shall immediately announce if the ball has completely passed the shooting-line and is positioned inside the shooting-area by stating: "shootable !"

7.1.3. The referee shall immediately announce a correctly scored goal by stating: "goal !"

7.2. Incorrect scoring

7.2.1. A goal-flick shall be awarded if a goal is scored not according to rule 7.1. See rule 15.

7.2.2. The goalkeeper may try to save or stop a shot not according to rule 7.1 without the risk of scoring an own goal by deflecting the ball. A goal-flick shall be awarded instead if the goalkeeper deflects an irregular shot into his own goal. See rule 15.

7.3. Own goal

7.3.1. A player can score an own goal from anywhere on the pitch regardless of the playing figure's and the ball's position. If the ball rebounds directly off the post or crossbar after a regular shot at the opponent's goal and passes the attacker's goalline, a goal-flick for the attacker shall be awarded. See rule 15.

7.3.2. However, the attacker can not score an own goal directly from a free-flick, corner-flick, flick-in, goal-flick or penalty-flick. A corner-flick shall be awarded to the opposing player instead. See rule 16.

When the offense occurs:

Referee's expression:

Illegal manipulation - free-flick / penalty flick

Punishment:

- a. Free-flick from the penalty spot for the goalkeeper's first offense. See rule 11.
- b. Penalty-flick for each of the goalkeeper's following offenses or if the law has been broken intentionally. See rule 12.

F.I.S.T.F.

8.1.3. Every touch of the ball by the goalkeeper is considered as playing the ball. The goalkeeper is thus never considered as a passive playing figure. However, a goal-flick shall be awarded to the goalkeeper's player if the goalkeeper deflects an irregular shot into his own goal (see 7.2.2.), or behind the goal line (see 15.1.1.).

8.1.4. Every uninterrupted touch of the ball by the goalkeeper allows the defender to take a block-flick. See rules 6.2. Thereby, the goalkeeper must not touch the ball more than three times in succession until:

- a. The ball has been played by another attacking playing figure.
- b. Possession of the ball has changed.

When the offense occurs:

Referee's expression:

Illegal manipulation - free-flick

Punishment:

- a. Free-flick from the penalty spot for the goalkeeper's first offense. See rule 11.

8.2.2. The goalkeeper may not touch any stationary playing figure that is positioned in the goal-area or touching the goal-area line. See rule 2.1.2.

When the offense occurs:

Referee's expression:

8.3.3. During playing time an unbroken goalkeeper may be substituted only once during a match. However, there is no limit to substitute broken goalkeepers.

Rule 9: Spare-goalkeeping

9.1. Application

9.1.1. The spare-goalkeeper is an additional playing figure that may replace the goalkeeper. To enter the game, the spare-goalkeeper must be positioned completely inside the goal-area or behind the goalline within the extension of the goal-area lines.

When the offense occurs:

Referee's expression:

Illegal manipulation - free-flick

Punishment:

Free-flick from the penalty-spot. See rule 11.

9.1.2. The spare-goalkeeper may be used under the following conditions:

- the spare-goalkeeper's player is in possession of the ball and
- the goalkeeper has been removed from the goal and is kept by the relevant player in one of his hands (or put on the playing board, outside the playing area in order not to hinder the game) and

F.I.S.T.F.

9.2. Removing

9.2.1. The spare-goalkeeper may be taken off the playing-area any time to reinstall the goalkeeper provided the ball is stationary and the spare-goalkeeper's player is in possession of the ball. If the spare-goalkeeper's player has lost possession of the ball, the spare-goalkeeper remains in the game and the goalkeeper may only be reinstalled providing:

- a. Possession of the ball has been regained by the spare-goalkeeper's player. However, if the played attacking figure flicks the ball onto a defensive playing figure (*not* the goalkeeper), and from there it rebounds back to an attacking playing figure, the requirement of change of possession is not fulfilled in order to take off the spare goalkeeper.
- b. The ball has crossed either touch- or goalline.
- c. A free-flick is awarded to the spare-goalkeeper's player.

9.2.2. When the spare-goalkeeper is removed, the referee shall allow the defender time to take an untaken block flick. Then the attacker may proceed with attacking.

Illegal behavior - free-flick

Punishment:Free-flick from the position of the ball at the moment of the offense.
See rule 11.**Rule 11: Free-flick****11.1. Definition**

11.1.1. All free-flicks are to be taken indirectly. Please consider rule 12 in the case of a penalty-flick.

11.2.5. The playing figure taking the free-flick must not be flicked again until:

- a. The ball has been played by another attacking playing figure or the attacker's goalkeeper.
- b. Another attacking playing figure has been touched by the ball.
- c. Possession of the ball has changed.

F.I.S.T.F.

Rule 12: Penalty-flick**12.1. Definition**

12.1.1. The following offenses are punished with a penalty-flick providing the offending player commits the offense within his/her own penalty-area. Thereby, the penalty-area line and the section of the goalline limiting the penalty-area are considered to be part of the penalty-area.

12.1.1.1. Foul play by the attacker. See 5.3.

12.1.1.2. Illegal manipulation of the goalkeeper. See 8.1.2. and 8.2.1.

The extension shall last until the referee has decided whether or not a goal has been scored. No other flicks by either player shall be made after the penalty-flick is taken, apart from the manipulation of the goalkeeper by the defender.

12.2. Procedure for taking a penalty-flick

12.2.1. The ball is to be placed on the penalty spot. A playing figure is to be nominated to take the penalty-flick and may be positioned as desired by the ball.

12.2.2. All playing figures, apart from the goalkeeper and the penalty-flick taker must be placed outside the penalty-area and its semi-circle. The referee shall move all other playing figures from the penalty-area on a line perpendicular to the goalline 1 mm off the penalty-area and its semi-circle.

Thereby, a playing figure is declared offside providing that the slightest part of the ball has passed the penultimate defending playing figure's base and the ball is positioned completely in the defender's shooting-area.

13.1.2. The same is true if the ball is placed already past the penultimate defending playing figure's base and positioned completely in the defender's shooting area, and is played *toward the defender's goalline* by *another* attacking playing figure.

13.1.3. The decisive moment for an offside decision is when the ball is touched. Therefore, the defender cannot play an attacking playing figure offside after the ball has been touched.

When the offense occurs:**Referee's expression:**

Offside - free-flick

Punishment:

Free-flick from where the playing figure was deemed offside.

Remark:

- a. If there are two or more playing figures deemed offside simultaneously the free-flick shall be taken from the playing figure's position nearer to the goalline (deeper offside).
- b. Playing figures or goalkeepers positioned behind the goalline are considered to be on the goalline regarding an offside decision.

- 13.1.4. A playing figure in offside position is not declared offside nor punished for it when:
- a. The ball is played directly from a corner-flick, flick-in, goal-flick or a penalty-flick.
 - b. The ball is played by the opponent.

Note, that in the above mentioned occasions the offside rule is again fully to apply with the next attacking flick. See 13.2. for passive offside.

13.1.5. An offside positioned playing figure can be used to play the ball.

13.2. Passive offside

If, by an attacking move, the played playing figure moves from non-offside position into offside position, there is no offside for this playing figure as long as the ball is moving: passive offside. However, this playing figure is not allowed to play the ball again until the ball has stopped.

F.I.S.T.F.

When the offense occurs:

Referee's expression:

Offside - free-flick

Punishment:

Free-flick from where the playing figure in passive offside was flicked before the ball has stopped.

13.3. Tick-flick

13.3.1. The attacker may attempt to flick a playing figure which is in offside position into onside position by taking a tick-flick. For each period of possession, the attacker is allowed to take three tick-flicks.

13.3.2. However, if the played attacking figure flicks the ball onto a defensive playing figure (*not* the goalkeeper), and from there it rebounds back to an attacking playing figure, the requirement of change of possession is not fulfilled in order to regain three tick flicks.

When the offense occurs:

Referee's expression:

Illegal flicking - free-flick

Punishment:

- a. Free-flick from where the offending player has flicked illegally. See rule 11.
- b. Free-flick from the penalty-spot if the offense has been committed in the penalty-area. See rule 11.1.

13.3.3. A playing figure may be "ticked" more than once. After three regular flicks in succession with the same playing figure, a tick-flick does not interfere with rule 5.2.

13.4. Procedure for taking a tick-flick

13.4.1. The player must ask the referee for permission to take a tick-flick, and also state "tick" before the onside flick is taken.

When the offense occurs:

Referee's expression:

Change !

Punishment:

If a tick-flick is taken without the referee's permission or if the player does not state "tick", the flick is deemed as an attempt to play the ball.

13.4.2. A tick-flick can only be taken if an untaken block-flick has been taken and the ball and all playing figures are stationary.

When the offense occurs:

Referee's expression:

Illegal flicking - free-flick

Punishment:

- a. Free-flick from where the offending player has flicked illegally. See rule 11.
- b. Free-flick from the penalty-spot if the offense has been committed in the penalty-area. See rule 11.1.

F.I.S.T.F.

When the offense occurs:**Referee's expression:**

Back / free-flick / penalty

Punishment:

- a. Back for touching any other playing figure. If back is claimed, the referee shall replace all affected playing figures to their previous positions. Then, the referee shall give the signal for the game to continue by stating: play!
- b. Free-flick from where the "ticked" playing figure has touched the ball. See rule 11./12.

13.4.4. A faulty tick-flick can be retaken but reduces the attacker's three tick-opportunities by one for that specific period of possession.

13.4.5. For each tick-flick the defender has the right to take a block-flick. See rule 6.2.

When the offense occurs:**Referee's expression:**

Illegal flicking - free-flick

Punishment:

If the attacker does not allow the defender to take his block-flick:

- a. Free-flick from where the offending player has flicked illegally. See rule 11.
- b. Free-flick from the penalty-spot if the offense has been committed in the penalty-area. See rule 11.1.

14.1.5. A goal can not be scored directly from a flick-in. See rule 7.3.

14.1.6. If the goalkeeper touches the ball, it is always considered as playing it (see 8.1.3).

- 3.2. If a playing figure is positioned within the goal-area or goal-mouth, it shall be moved forward to 1 mm inside the penalty-area.
- 3.3. If a figure is positioned across the touchline and is closer to the barrier than the touchline, it can be placed on the touchline to be played.
4. The playing board's barriers can be used with either the playing figures or the ball to rebound off.
5. The attacker may play a moving ball. However, if the ball has stopped, the attacker *must* allow the defender to take a block-flick. While the attacker is playing a moving ball, the defender is not allowed to interfere.
6. After a save by the goalkeeper, the ball must be stationary before the attacker may continue to play.
7. There is no offside and therefore also no tick-flicks required.
8. *Flick-in:*
- 8.1. For a flick-in, the ball must leave the playing board on one or the other side.
- 8.2. A flick-in can be forced off any playing figure or goalkeeper that is positioned on the playing board. However, the ball must leave the playing board in the same half as the forcing and deflecting figures.
9. *Goal-flick:*
- 9.1. For a goal-flick the ball must leave the playing board on one or the other side of the goal.
- 9.2. A goal-flick can be forced off any playing figure or goalkeeper that is positioned on the playing board.
10. *Corner-flick:*
- 10.1. For a corner-flick, the ball must leave the playing board on one or the other side of the goal.
- 10.2. A corner-flick can be forced off any playing figure or goalkeeper that is positioned on the playing board. However, the ball must leave the playing board in the same half as the forcing and deflecting figures.
11. By taking a flick-off, flick-in, corner-flick or goal-flick, the ball must become stationary and the defender may take a block-flick before the attacker can proceed with his attack.
12. The standard size of the playing area is 60 x 90 cm.
13. Except when mentioned above, the playing rules of point II are also applicable to Indoor sports table football.
